The Dothan Formation (Yolla Bolly terrane) is part of the Franciscan complex terrane in SW Oregon.

Simplified geologic map of the Wild Rogue Wilderness (see Plate 1 for more detail). The Myrtle Group (Days Creek and Riddle Fms.) and its igneous basement are part of the Snow Camp area. The Dothan Formation (Yolla Bolly terrane) is part of the Franciscan complex (Modified from Figure 5.1 and Figure 2.2a).
