

# A Part of Ruedemann's Map of the Capital District

Ruedemann's Units:

Ordovician

- Osc** Schenectady beds
- Oc** Canajoharie shale
- Osn** Snake Hill shale
- On** Normans Kill shale
- Odp** Deep Kill shale

- ★ fossil locality
- fault
- - - on Ruedemann's map (1930) unspecified contact, according to text (Ruedemann 1930) essentially conformable
- outcrop

western boundary of intense tectonic folding

western boundary of distinct tectonic folding

stratigraphic units, boundaries and fossil localities are from Ruedemann (1930)
