

Lithic Units

- Oml Morses Line Fm./Stanbridge Gp.
- Corliss Mb.
- Oh Highgate Fm.
- Cg Gorge Fm.
- Csb Saxe Brook Fm.
- Cd Dunham Fm.
- Cp Phillipsburg Series (undifferentiated)

Symbols

- well-constrained conformable contact
- poorly constrained conformable contact
- well-constrained thrust fault
- poorly constrained thrust fault
- late, high angle fault, this study
- late, high angle fault, Haschke, 1991
- outcrop
- strike and dip, bedding
- horizontal bedding
- strike and dip, cleavage
- fault slickenline plunge
- fold hinge plunge
- L not in place
- Highgate Anticline

Quebec map base from Energie, Mines, et Ressources Canada, Lacolle 1:50,000

Vermont map base from USGS Highgate Center, Vermont 7.5' topographic quadrangle

Combined geology of St. Armand Station area (southern Quebec) and Highgate Center area, northwestern Vermont
Adam Schoonmaker, 2005
