

GEOLOGICAL MAP OF THE NORTHEASTERN NYAINQENTANGLHA, TIBET

Namco Lake

Namco

Damxung

- Road
- Track
- Station
- Attitude
- Lineation
- Unconformable contact
- Sinistral strike-slip fault with extensional component
- Zone of high ductile shear strain with subhorizontal stretching lineation(Sinistral shear sense)
- Reverse fault

Q4	Q1-Q3	Marble	Elongated pebble conglomerate	Phyllite
Schist	Limestone	Gray sandstone	Purple sandstone + conglomerate	Igneous rocks
Slate etc. (Cretaceous)	Limestone etc. (Late Jurassic)			

Mapping by Li Youshe (2002)
