

ATM 400  
Assignment #1  
Due: Thurs Sep 4

Aug 28 2008

Browse recent (i.e., 2005–current) articles in the American Meteorological Society journal “Weather and Forecasting” (found online at <http://www.ametsoc.org/>), and chose one article of interest.

Then, do the following:

1. Concisely summarize the *most important* points of the article in outline or bullet form. Be sure to include information about the authors’ research objectives, methodology and data sources, results, and conclusions.
2. Create a citation for the article exactly following AMS format. (Refer to the AMS Authors’ Resource Center online and reference sections from recent AMS journal articles for help.)
